TEMPORAL ASSESSMENT

COMMENTS/DESCRIPTIONS This lot is unclear. I suspect it's Early Postclassic, although it really doesn't have Fulano. It does have a Volasto. The shards are in poor condition. Paster have a lot of white temper. Uluca are added.

COMMENTS/DESCRIPTIONS From Jicore Gvp Shards are heavily burnt and pitted (very hard on the interior. They have a higher than usual mica content. The Tricavallas is very crude in paste, in its distinguishable from mediocre Jicore. The La Champa bowl is in an unusually orange paste. The Polychrome is thoroughly burnt - darkened as blue, but not firmly.
